

Did you know?

You're paying the highest tuition fees in the country.

Not only are we the province with the highest tuition fees on average, but we also have the lowest per-student funding out of all the provinces. Today, the average undergraduate student will graduate \$37,000 in debt when including public and private loans.

When Premier McGuinty went to law school in 1980 his tuition fees were \$698. Today, if premier McGuinty went to law school at the University of Toronto, where tuition fees are over \$21,000, he would have to work full-time at minimum wage for 57 weeks to pay for tuition fees.

In 1980, McGuinty would have had to work full-time at minimum wage for only 5 weeks.

Students in Quebec have the lowest tuition fees in the country!

This year, we have seen the students in Québec create a popular movement to resist tuition hikes. Through mass mobilization, students have been able to make their government back down again and again in their history. We must learn from their example and start mobilizing on our own campuses in Ontario.

DO YOU THINK TUITION FEES SUCK?

**GUELPH STUDENT
MOBILIZATION COMMITTEE**

This flyer is brought to you by the Guelph Student Mobilization Committee. We will continually work to mobilize students for more accessible, free, quality, fully public education, and work to put pressure on those in power to get their priorities straight. Join us and help build the Ontario student movement!
